Good morning,

I am a Rural Housing Enabler with Devon Rural Housing Partnership and am responsible for carrying out housing need surveys in Devon. I have been asked to carry out a survey on behalf of a landowner with a site in Blackerton. This survey is intended to identify how many households are eligible for affordable housing in the 4 parishes and to gauge the level of support for a small scheme of affordable homes. I understand from the planning agent for the landowner that you are aware of this survey and that the parish council have agreed to it taking place.

In order to ensure that people understand the reasons behind the survey and are aware of it we like to publicise the surveys locally when possible. I am wondering if the attached short article could be placed onto the Knowstone Parish website and if you could print off the attached poster and put it onto parish noticeboards etc.

If you have any questions please don't hesitate to contact me.

Kind regards,

Janice Alexander
